

# Target model H2F

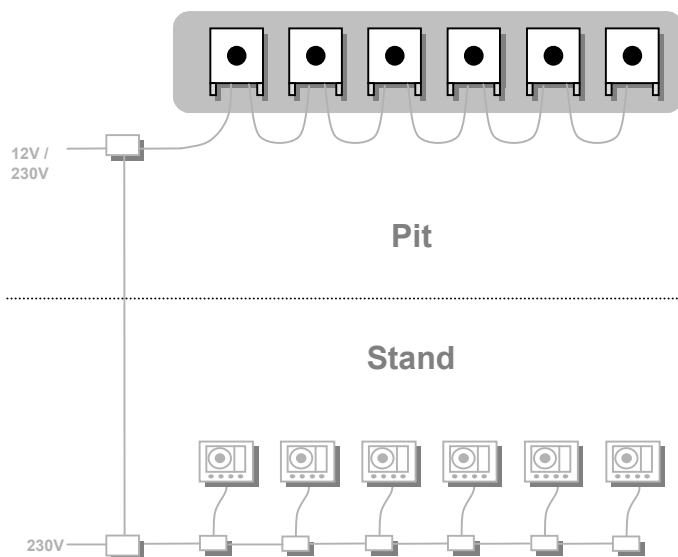

A target from Kongsberg Mikroelektronikk AS for use at indoor 10m – 15m – 50m ranges.

The target has integrated target electronics and is compatible with existing systems at 50-300m.

The target has a sturdy armoured construction with 5mm steel in front and sides. The automatic strip feeding can be adjusted from the shooters monitor. Enclosed with the target is a mounting bracket for wall-mounting.

As supplementary equipment, we have a floor stand with or without a lift. The lift can be controlled from the shooters monitor or from the control room software "Orion", for 3 position shooting.

The target is easy and quick to maintain. It can be lifted off the mounting bracket for exchanging target or paper strip/rubber band, without any use of tools.

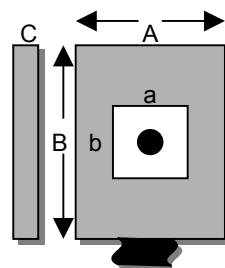

## Recommended use:

- 10 – 15m air rifle / air pistol.
- 15m small calibre rifle.
- 50m small calibre rifle.

## Technical :

### Dimensions:

A .....	300 mm
